TRACEWELL WOULD ACCEPT JUDGESHIP

Treasury's Comptroller, However, Is Not a Candidate for Judge Baker's Place.

A HARRISON COUNTY MAN

Tracewell Has Made a Record in His Present Position, and is Popular with Hoosiers at Washington.

(By James P. Hornaday, Staff Correspondent.)

WASHINGTON, November 25.—Of the Indians conspicuous in office at the national capital, Robert J. Tracewell, of Corydon, Ind., Comptroller of the Treasury, takes first place in the estimation of his better than Indiana, for his public services have nearly all been performed here, and, for the most part, have been of such character as not to attract attention in his own State. It would be pleasing news to his friends here to hear that he had been appointed judge of the United States District Court to succeed John H. Baker, at Indianapolis. If the appointment does come to him, it will come unthought, for he is not a candidate for the place, and has no wish to leave it.

To Harrison County.

Mr. Tracewell is in the prime of life. He was fifty years old last May. He was born in Virginia. At the age of two years he went with his parents to Harrison county, Indiana, and ever since that time the county has been his home. In 1874 he was a graduate from Hanover college, and immediately entered his father's law office at Corydon.

He took the law at the Indiana bar, and was elected to the Indiana House of Representatives in 1884. He was elected to the Indiana House of Representatives in 1884. He was elected to the Indiana House of Representatives in 1884.

He was elected to the Indiana House of Representatives in 1884. He was elected to the Indiana House of Representatives in 1884. He was elected to the Indiana House of Representatives in 1884.

Hub Deep in Mud in Washington Street

A Sight that Was Common Years Ago, but that Is Rather Unusual Now—In a Trench.

The wagon was a dray, loaded with heavy boxes. The horses strained and the driver swore, but it could not be budged. One of the would-be humorists that always get in such a crowd suggested that someone hunt a rail fence and get a rail for a lever, but the best he got was a look of scorn from the driver.

After much shifting of the boxes and lashing of the horses several men "put their shoulders to the wheel" and the wagon was slowly lifted from the mire.

PARKER'S HUNT IN THE HINSHAW CASE

Continued from Page One.

whose lover was a burglar. This burglar told her that he had been in Little Rock, Ark., and there met two other thieves. They robbed a hotel at Little Rock, and a number of diamonds were stolen.

These they sold at St. Louis, and, getting drunk on the money, were arrested and sent to the stone pile. When they got out they "bummed" their way on a Vandalia freight train as far as Coatesville, Pa., where they were out at night and day.

They walked toward Indianapolis, and, getting hungry, broke into the Hinshaw house. They found some pie, and while eating it, were attacked by Hinshaw and his wife, and the killing resulted.

Parker spent three weeks investigating this story. He found that the reporter of it was a former street-car man from Hartford, Conn., and was known as a thief to the Philadelphia detectives.

Mr. Parker was asked, "Did you find that the three men answering the description had been ejected from a train?" He replied that he had not.

Some Very Late Suits and Wraps

Late in a double sense, for they not only are the newest designs, but should have been here ten days ago. A little too close to Christmas for so large a lot of Suits and Outergarments to reach us, and prices have been materially cut in consequence. Suits that should have sold for \$25.00 are marked \$15.00. Coats that were intended to sell at \$22.50 are also placed on sale at \$15.00, and this proportion runs all through the stock. THE FINER IMPORTED COSTUMES HAVE BEEN REDUCED TO ONE-HALF OF ORIGINAL PRICES to close out at once, and this lot embraces some entrancingly beautiful creations. THE READY-TO-WEAR DEPARTMENT IS WORTH A VISIT THIS WEEK.

Ladies' tailor-made Suits, of Linovalle cheviot, black blue and brown, lined throughout with best taffeta silk, plain-trimmed blouses..... **\$25.00**

THE CITY OF INDIANAPOLIS.

If the people of Indianapolis really wish to improve their municipal government, they can not get to work too soon. For though the election is almost a year off, the machines on both sides are actively at work to control the situation. And if they have their way we shall simply have the old chance of choosing between two unfit men for mayor. As far as we have been able to learn, the local Democratic organization falls to understand the situation, or to appreciate its responsibility to the people. Several gentlemen are already being "groomed" for mayor, none of whom has any marked qualifications for the place. We call attention to these facts thus early in order that the people may not have the excuse of ignorance for failing to do their duty. It is time for the people to take the machines in hand—or rather to smash them, and go after some results that would really be worth while.

The people can control the situation if they make an honest effort to do so. But they can effect nothing if they allow themselves to be ruled by partisan considerations. The gamblers and the liquor-sellers vote, not for a party, but for their business, and they count with certainty on the fact that the law-abiding, substantial people of the community will vote for their party rather than for their business or the city's honor and good name. The lawless and corrupt elements know no politics, but only their "business." And at every election they smile as they see the decent people play their game by standing stanchly for their party ticket. Would not this be a good year to fool them? The people of this town who are really interested in its welfare should pick out a man, no matter what party he belongs to, for his nomination from one machine or the other, and then get out and work for him and vote for him.

The case is in the hands of the people. They can redeem the city if they go about the work in the right way, and begin early enough. There is nothing easier to overthrow than a political machine, if public sentiment can once be aroused—and organized—against it. But hard work, wise leadership and close organization are necessary to bring this to pass. We urge prompt, vigorous and intelligent action.

FREE HIDES.

Our esteemed friends of Massachusetts are making a hot fight for free hides. We wish them all success, for the duty on hides is absurd. But we wonder whether our friends would consent to free boots and shoes, free woolen and cotton goods, or to the serious reduction in the duties on any of the products which they manufacture. To leave these other duties as they stand now and to remove the duty on hides would be to give just so much more protection to the industries using hides as raw materials. Here is the weak place in the New England campaign. For many years the people of New England have dealt with the tariff question quite apart from any considerations of principle. When they thought that free trade was good for them, they were for free trade. When they thought that protection was good for them, they were for protection. The pitiful change in the views of Daniel Webster on the subject was due to the influence of the business men of Massachusetts, who wanted a tariff to help them in their trade.

The same spirit yet prevails. We do not mean to say that it is peculiar to New England and Massachusetts, for we are all selfish in our business relations. But in other sections of the country we believe there is more of a disposition to put up with protective duties that injure the people of those sections, provided those duties that are thought to help them are retained. The people of the West have little or no interest in the duties on boots and shoes or on woolen goods, but there is no disposition anywhere to single them out for repeal. Yet they ought to be repealed, or at least greatly reduced. There are many great difficulties in securing practical agreement among the various industries as to the amount of protection to be given. May it not be possible to secure an agreement as to the amount of protection to be withdrawn? Probably not, but the experiment would be interesting.

However, it may be doubted whether the demand of the Massachusetts people for free hides will have much effect. It has—or is supposed to have—no real moral force behind it. The campaign is really for tariff reform, but for protection that will really protect. The movement is interesting, and out of it may develop in time a public sentiment which will compel a general readjustment of the tariff to modern conditions. The activity of the New Englanders will have the effect of stirring up matters in other parts of the country, and the more the question is discussed the more unreasonable will certain features of our present tariff appear.

IN THE MATTER OF ADDICKS.

We are glad that President Roosevelt shows the proper sense of the situation under the criticism to which he has been subjected on account of his appointment of Byrne to be district attorney of Delaware. That we may state the case fairly, we set out the President's explanation:

On his return to the White House the President found that some misapprehension existed as to the resignation of Byrne from the United States attorney for Delaware, and authorized the following statement regarding it: "Mr. Byrne was originally appointed United States attorney of Delaware by President McKinley. President Roosevelt knew him personally. In the opinion of the President, he has rendered excellent service for the public good in more than one direction, and he has been a staunch supporter of the President, when he has been called upon to do so. He was reported by the Department of Justice as a fit and competent district attorney, and the President

had entire confidence in his ability and integrity. He accepted the nomination for Congress. Other district attorneys were marshaled had accepted such nominations without being requested to resign, but in view of the fact of the national fight in Delaware the President thought that Mr. Byrne should resign, which he accordingly did. When the election was over the President responded him without having given him the slightest previous indication that such was his intention. He would have been disappointed without regard to the circumstances under which he ran or the faction with which he was allied."

The most remarkable thing about this incident, so far as the President of the United States should feel called on to publicly defend his action. But there are other remarkable things about the affair. In the first place, we have a complete shifting of ground. Postmaster-General Payne said Byrne was appointed because he represented the dominant faction of the Republican party in Delaware, and for no other reason. We think that the President and his Postmaster-General ought to "get together."

Of course, the fact that the man was originally appointed by Mr. McKinley has no bearing on the present case. But President Roosevelt goes further and says that Byrne was chosen by him as a competent, and that the Department of Justice testified to his fitness. But the correspondent of the New York Evening Post, a gentleman known to be friendly to the President, says on this subject:

"The Department of Justice at Washington knows and has remarked upon the fact that Byrne was in that office that he observed that he did not seem to know how to draw a legal paper."

So there seems to be some question of the fitness of the man. We do not think that the fact that Byrne has been a staunch supporter of Mr. Roosevelt is a good and sufficient reason for appointing him. The President further remarks that he thought that Byrne ought to resign from his office when he became a candidate for Congress, and that Byrne "cordially" did so. But the general impression is that Byrne resigned simply and solely because Addicks wanted to use him as a tool to defeat Mr. Ball, the regular Republican candidate for Congress, which was accomplished solely through Byrne's candidacy. This is the nature of the party service that is rendered—and we have a right to appeal to it in view of the fact that the President refers to Byrne's loyalty to himself. The President's explanation hardly covers the ground. But we are glad that he offered some excuse, for we may infer from that, possibly, that he will go no further, as it has been thought that he would, in recognizing Addicks.

OIL INSPECTION.

Undoubtedly the present system of oil inspection in Indiana is antiquated, and the need of a new system is the first of next year, is no great improvement, except in so far as it provides that a part of the fees shall be paid into the State Treasury. The new law contains the same provisions regarding inspection by the barrel as the law it supersedes. The provisions grew out of conditions existing many years ago, when oil was shipped in barrels, and not in large tanks. The law should have been drawn in harmony with modern methods of shipping.

Under the present system of oil inspection, the inspectors, for a few minutes' work each day, receive enough fees to amount to a considerable salary in a year. The positions are regarded as sinecures. Instead of inspecting oil by the barrel, they inspect a sample from a tank containing many barrels, and by agreement with the oil companies they charge 10 cents a barrel for all in the tank.

The oil used in Indiana is shipped from four or five points. It has been suggested, and the suggestion appears to have merit, that three or four inspectors make tests of oil for Indiana at the refineries. They could easily do the work now done by nineteen or twenty inspectors. Let the State pay these inspectors a straight salary and let the fees be turned into the State treasury. The inspectors now draw about \$30,000 in fees a year. Under the new law half of the fees will be turned into the State treasury and half retained by the inspectors, but out of half the fees, say \$15,000, the salary of \$2,500 a year for the State supervisor of oil inspection must be paid. This will leave the State \$12,500 better off under the new law than under the present law.

Four inspectors stationed at shipping points could do all the inspecting for \$1,500 a year each, or \$6,000. Let the fees be paid into the State treasury, as they should be, and the State will be \$24,000 better off every year than it is under the present system, and \$11,500 better off than she is under the system of inspection to begin January 1.

ANATEUR AND PROFESSIONAL.

The recent squabble among the Eastern universities ought to have the effect of impressing on the young gentlemen of those institutions the necessity for some rather drastic action concerning professionalism. One year ago Harvard sent a straight salary and let the fees be turned into the State treasury. The inspectors now draw about \$30,000 in fees a year. Under the new law half of the fees will be turned into the State treasury and half retained by the inspectors, but out of half the fees, say \$15,000, the salary of \$2,500 a year for the State supervisor of oil inspection must be paid. This will leave the State \$12,500 better off under the new law than under the present law.

know that Yale would not play Glass if he were ineligible, and that she was willing to trust to Yale honor. If there is such a thing as college honor—and we are convinced that there is—why would anyone want to play Glass if he were ineligible? In the two cases this year, that of Glass and that of King, there was no protest, but only an appeal to the sense of fair-dealing on both sides. There was no attempt to enforce the rules, but only an appeal to the honor of the two universities. Why not leave the whole question there? It is admittedly hard to draft rules that shall be fair and just to all concerned. It is not hard, if there is an honest effort to do so, to decide upon a just (and moral) and who an amateur. The moment you begin to frame rules you impair the honesty and integrity of the parties to them. For instance, the four-year rule is based on the idea that our great universities will be parties to a scheme to get men to enter them simply for the sake of taking part in athletics. When you say that a man who has received money for playing football shall not participate in a college game, you are saying that he would play such a man, and then when it comes to an interpretation of the rules there are many chances for mistakes, and the temptation to read them favorably to your side is always strong. When one side offends by straining the rules, the other side feels that it must get even. Thus hard feeling is engendered. At the present time the athletic relations between Harvard and Yale are in a decidedly strained condition.

Possibly our suggested question, whether it would not be a good idea to abrogate all rules, to refrain utterly from protesting players, and to put the whole burden—where indeed it usually rests—on the universities interested. The college papers can, if they will, do much to improve the existing condition. The alumni and their organs can exert a powerful influence. The effort should be made to create a strong public sentiment against professionalism and to develop in the young gentlemen a determination to win honor in no way but at all. We think that that is the feeling now, only it is obscured by college politics and a very human desire to make the rules bend to a particular case. Let us have more of honor and less of law. We are very sure that if it were understood that any university might play any man for whom it was willing to assume the responsibility, no university would play any man who ought not to be played. Certainly that result would come in time.

After a couple of escaped monkeys got through with a Kokomo drug store, the proprietor was almost driven by despair to have his sign changed to "Prescriptions Confounded."

There is much speculation as to the probable successor of Judge John H. Baker as Federal district judge. The names of many lawyers of this city and other parts of the State have been submitted to the President, and the friends of certain of these are active in their support. Some way the impression has been created that the man most likely to be appointed is Mr. Roscoe Hawkins, of this city. If the President were to have adopted that suggestion, he would appoint no man to the bench that had passed the age of fifty. Mr. Hawkins can not be appointed. It can be said for Mr. Hawkins that the bar of this city is so favorable to his native ability and his legal attainments. But his appointment would none the less be construed by the public generally as a reward for his political activity.

There is no doubt that the President is a good deal nearer the leaders in Congress now than he was a year ago.—Journal.

He does show an aptitude for getting lost, that's a fact.

The decision of the Supreme Court of Indiana in the Vandalla case brings this important matter one step nearer final determination. We take it that the fact that the railway company will appeal on some ground or another, to the Supreme Court of the United States. But of course, the chances for the success of the State are greatly increased by today's decision. The attorneys for the State are entitled to congratulations.

Many letters to The News have criticized the management of English's Opera House, because of the lack of accommodation and decent treatment for patrons of the gallery. The great crush and jam at the gallery entrance—even if it is an alley—may be easily avoided, as it was last night, by the issuing of coupons for every seat in the gallery, the same as is done in other parts of the house. During the engagement of "Ben-Hur" in every city coupons have been issued for the gallery seats, and this is the rule here and will be during the next week of the engagement. If this were established by the management of English's as a permanent custom it would go far to nullify the recent complaints. And there is no good reason why it should not be done. Other theaters find it profitable to issue coupons for 25-cent seats, and there is a large class of people in this city—students, school teachers and people of small salaries—who, enjoying and appreciating the theater, would be grateful to the theater for thus making it possible for them to patronize the drama often and more comfortably.

It may not have occurred to the administration, but it is a fact, nevertheless, that it will find it easier and cheaper to enforce the law at the time than to enforce them part of the time. It may, however, not be so profitable for everybody intimately concerned.

Judging from the precautions they are taking to protect themselves, the local cigar dealers evidently do not regard the United States Company as one of the "good" trusts.

The serious riots in Havana have a tendency to make the older inhabitants look back with a sigh to the less strenuous and less bloody days of intermittent revolutions.

A statement from Washington put the probable appreciation value of the Arsenal ground at \$300,000. Another statement home puts it at less than \$100,000. We shall soon know, for the report of the appraisers must soon be ready for publication. But it is apparent to anyone "native and to the manner born" that the latter statement is much nearer the truth. The ground is worth rather less than more than \$100,000, while the buildings would hardly more than pay for their removal, were the ground to be used for residence purposes. The comparatively low price that such an estimate may seem shows the depreciating effect of the railroads in Indianapolis. They divide the town worse than a river would.

Woodruff Place, anywhere on the North Side—and "north side" is north side simply because of access from the business center free of the menace of the

railroads—would be worth a premium over the highest-priced residence ground in the region, as such houses are in all cities. Woodruff, indeed, has natural advantages that few of these "places" in other cities have. But, located as it is, with the railroad tracks between it and the business center, its value is hardly a fair estimate of what it would be if it were not for the same cause operates to depreciate the value of the Arsenal grounds for residence purposes, and hence to determine its market value. In any event, the thing for us to do is to lose for the completion of the sum we set out to raise—\$100,000. If, happily, the sum put by the appraisers for the ground shall be less than this, it will work to the relief of the subscription effort, but it would not be harmful to us should we give Scripture measure.

The United States Civil Service Commission will endeavor to convince the letter carriers that they get enough exercise by carrying letters, and are not benefited by pernicious political activity.

The railroads are not only embarrassed by more traffic than they can handle, but they can not exactly determine just how great an increase in freight rates the people, in their present plethora of prosperity, will stand. Of course, they do not want to miss any profits by making too low a rate, neither do they want to create a revolution of feeling by making them too high—especially when so many Legislatures are in session. So, you see, the railroads have their troubles as well as the rest of us.

Ben-Hur was a long time in coming home, but it looks as if the people were mighty glad to see him.

Carl Marshall, one of the Harvard team, in predicting a Harvard victory last Saturday, said:

"Nobody ought to be fooled by Yale's strategy. I maintained that she hadn't a decent team against her."

Inasmuch as Princeton lost 12 to 5, and Harvard lost by 23 to 0, it is probable that the Harvard team has revealed his opinion of the Princeton team. But if Princeton's team was not "decent," what shall be said of the Harvard combination?

In other words we do not object to European nations collecting their debts in this hemisphere so long as they do not foreclose on the property.

On account of the offer of one thousand dollars each, for freshly killed train robbers, which has been made by the Western railroads and express companies, it seems highly probable that the robbers' companies will put train robbery on the extra list of crimes. No one doubts the courage of railroad men, which has been proved on many occasions, but it is reasonable to suppose with a large cash incentive to them to shoot robbers in the night, the resourceful train robber will have to improve his method, or suffer a great decline in his business, with the possibility of having to withdraw from it suddenly and finally.

Three hundred negroes will sail from Savannah to Liberia in January to find homes in the African republic. Here's good luck to them, and may they find the young nation to their liking!

More and more does the influence of freight rates on the coal mining situation become apparent, and Pennsylvania has only itself to thank for this condition of affairs, which at frequently recurring intervals causes great loss of material wealth and reputations. Pennsylvania's reputation has got past the point where much damage can be done to it, but its wealth hasn't, and by legitimately conserving its wealth, it may improve its reputation to a degree which consideration must be given by other people.

The outlook for a settlement of the coal strike still remains doubtful, but the situation has not yet assumed definite enough form to cause the coal dealers to cut rates.

The idea of rehearsing the details of a tragedy with all the real accessories obtainable for the benefit of certain officers of the law is a gruesome bit of dramatic realism that only the sentimentalists of the Proctor and Knott school or tolerate. Such people never use their reason when they can make their emotions serve.

The caution question will be a difficult one to decide, but it does seem that considerable attention should be paid to the reports of army officers, who have been educated by the nation and are supposed to know their business.

Of course, Reed Smoot, Mormon apostle, can not be regarded as a desirable member of the Ministerial Alliance of Salt Lake City, which was showing undue apprehension when it protested against his election as an endeavor to force on the citizens of Utah a union of church and state. One Senator, though he is a member of both, does not make a church and state. The church and the state are a long way apart in this country, and in making its way to the state the church will have to pass over a good road made by the progress of the church in Egypt and elsewhere on the earth. Eastern Europe, where the government has granted concessions for this purpose to Edward Nicholas, an Englishman.

More than 524,000 acres of land in the Indian possessions of Great Britain are being cultivated for tea, corn, and other crops. The area being in Assam and Bengal. Production is officially estimated at 10,000,000 pounds.

On March 20, 1900, a law went into operation in France limiting the hours of labor for ten hours and thirty minutes a day in all factories employing mixed help—that is to say, employing women and children as well as men.

The exodus of Scandinavian emigrants to the United States continues to be the largest in the world. The hard times at home and the more stringent laws for the restriction of soldiers and sailors in the reported prosperity in America, are responsible for the universal movement.

Siberian merchants are loudly complaining that Manchuria and ports in Siberia are flooded with American, German, Japanese and other foreign goods, and that Russian trade is disappearing. Energetic measures are demanded, particularly a frontier guard sufficient to prevent smuggling.

Chief Klauka, last of the once great Delaware Indian tribe, has just died in his little log hut on the banks of the near Lehigh. He is in his forty-first year, and with his self-expressed wish, the old man was buried in the shadow of a great elm tree which stood near his cabin door.

A geological survey report on Crater Lake, Oregon, containing the following assertion, commonly made, that this remarkable body of water is bottomless. It is a little longer than it is wide, and the bottom in the deepest part, making it probably the deepest body of water in the United States. This lake was formed in a former geological age by the collapse of a volcano.

No two histories of the South African war agree as to the ages of the Boer generals. This fact was noted by the London Chronicle, which made special efforts to learn the truth. It now announces that, having had access to information not obtainable hitherto, it is able to state that both the Boer and the British De La Rey (as he spells his name) in his fifty-sixth, and De Wet in his forty-fourth.

Berthold Tree, the London actor, has a daughter, Viola, who shows strong artistic tendencies, though she does not wish to enter the profession in which her parents have been so long prominent. When quite a little girl she begged her father to get her a pony. "But, my dear," said her mother, "you are only a child. Little Viola considered a moment and then said: 'Well, why don't you act better and then you would get more money?'"

Bertil, the expert, who won unenviable notoriety in the Dreyfus case, has at last vindicated his claims for his system of detection. A mysterious murder was committed in Paris lately and no clue was left by the murderer except certain finger-marks on a window pane. The detective identified them as belonging to a man who had undergone the anthropometric test in the Dreyfus case. The man was found and arrested and the murder has been proved against him.

George Betton, a London writer, has published a budget of anecdotes, one of which tells of a fashionable woman who appeared before Pope Leo in a very low-necked dress. His holiness disapproved of the costume and said to her: "I am a cardinal to reprimand with the wearer. The messenger made this rather ambiguous explanation: 'The Pope's dear madam is rather old-fashioned, you know, and dislikes seeing any lady in a low-necked dress. I, on the other hand, who have spent six years of my life as a missionary among the cannibals, am quite used to it.'"

Some Things to be Thankful For.

I'm thankful that the sun and moon are both here up so high.
I'm thankful that the stars stretch
And pull them from the sky.
If they hung low, I'm very sure
Some catastrophe would ensue.
I'm thankful that the shining stars
Are far beyond our reach.
And that the rolling planets, too,
Are dear to human eyes.
If they were not, I'm very sure
Some catastrophe would ensue.
And manage this whole universe
By private enterprise.

I'm thankful that the God of all
We have no need about.
He changed His plan for making man
By making him from clay.
He had not, it is very clear
"Should be a doubtful case."
Some men would form a big clay trust
And stop the human race.

A Holy Nation.
Let Liberty run onward with the years,
And break the shackles of the weak.
The tyrant's harness, the oppressor's spear;
Bring ripened recompenses that shall make
Some ancient law's broken long arrears,
From holy benison on hearts that ache:
For the great God of the universe
Has set the glad ether singing to the skies.

Our hearts are full with statistics; let us cleanse
The house of our falsehoods and pretense.
Tread down our rank ambition, overthrow
Our pride, and let the truth be seen.
Thus up our hidden thrones which grow
The more infectious in May time, and strike
The more infectious in May time, and strike
The more infectious in May time, and strike

Wild Flowers.
The green world never but God,
Lifts a gardener,
From the sterile soil,
His car.

Our morn and evening dew—
The sacrament
That maketh all things new—
Prove to the heart the best.

And thither, never in vain,
We look for aid.
To the great, the all-wise,
For rain or shade.

Appointed hour by hour
To weary need
For the power
Of nursing need.

Till morning dawns done,
With parting smile,
To sleep a while.
—Father Tabb.

At Eventide.

At eventide I saw the level plain
So rich and small beneath my feet.
A simple sea, without a stain,
With homelike peace and quietude.
I saw the hills, that seem to rise
From the great sea, and I thought
How far I was from the shore—
How far I was from the shore—

There is a great, that radiant light
That comes from the heart of man,
That comes from the heart of man,
That comes from the heart of man,
That comes from the heart of man,
That comes from the heart of man,
That comes from the heart of man,
That comes from the heart of man,

SCRAPS.

The old key is one of the best remedies for stopping nosebleeds.
It is being used as fuel on a number of ships sailing between San Francisco and Honolulu.

After fourteen years' study of the monsoon, Professor Schaller, of the University of Chicago, has reached the conclusion that their vocabulary is not large enough to hurt.

The first steam engine ever sold as a regular article of commerce was shipped by a Boston merchant named Tudor, in 1766, to the West Indies.

Wages of the working people of the United Kingdom, according to official statistics, show a decline of \$2,000,000 last year compared with the preceding year.

Mrs. Alexander Hamilton had the first fish caught in the United States. She told to tell with amusement of the delight with which President Andrew Jackson had tried it.

Fish kept in filtered water, it is said, will die. That is because the food has been filtered out, and the fish, which is what makes unfiltered water dangerous as a beverage to human beings.

Ricefields are one of the breeding places of mosquitoes, the Italian government passed a law last year forbidding the cultivation of rice in the marshes.

Judge M. M. Sheldon, of Macomb, Mo., married a young girl, and in the ceremony, in order to make sure that both parties should be of the same age, he called attention to it.

Gorodok, the smallest town in Massachusetts, is a little larger than a village, and its population is 100. It is a village, and its population is 100.

Practical measures for the progress with a view to exploiting the various coal fields existing in Egypt and elsewhere on the earth. Eastern Europe, where the government has granted concessions for this purpose to Edward Nicholas, an Englishman.

Night Air Harmless
If you use Dr. Hull's Balsam as a preventive for coughs and colds, a 15-cent bottle will stop your cough and a doctor's bill as well. At your druggists. Accept no substitute.

Through the Microscope

MEAT AND POISON.
"What is a germ-matter, pa?"
"What's reparation?"
The difference I'd like to know,
And what is the intent?"
"The difference between the two,
My son, should raise no doubts.
It is the same, and present one
Between the ins and outs."

Superintendent Taffe is so sure that there is no gambling going on in the city now that he would be pretty near willing to bet on it.

Nearly six thousand physicians are practicing in Indiana, and the rest of us are what they are practicing on. However, practice makes perfect, and somebody will undoubtedly live to see the millennium.

Judging from police reports, business was never better with all kinds of thieves. They are busy night and day trying to keep up with their work, and with some opportunities have to be neglected.

IN THE WEB.
"Heavily weathered, what's he?"
"But it's not unreasonable, you know."
"Yes, I know, that's what makes it so irritating."

It will be a little disappointing not to have voting machines at the next city election, but if we can manage to break up the machine vote we may continue to hope.

The peculiarity about the "Consumers' Trust" people is that they "do not care to discuss the question." This attitude consistently maintained, and, heretofore, and public curiosity has won itself out without finding out anything; but with gas so nearly exhausted and trust stock quoted at such high figures, there is a growing feeling that the information desired will be worth the trouble required to get it. And whenever affairs get to this state, somebody has got to show cause or let go.

About the only comforts some people have are other people's discomforts.

So General Alger is to look after the Roosevelt machine, and the rest of us are what they are practicing on. However, practice makes perfect, and somebody will undoubtedly live to see the millennium.

When politics starts in to make strange bedfellows, it doesn't pay much attention to history.

It is not thought that statistics for the football year ending Thursday, the 27th inst., will show an increase over the average number of casualties. Indeed, they are some optimistic investigators who maintain that a decrease will be shown. They base their opinion on their belief that the improvement in ballistics and projectiles will result in a lessening of the number of casualties. The impression seems to be gaining ground that when the player now steps on to the gridiron arrayed capably for the contest, he is well-nigh invulnerable; but there is a growing fear that his armor will become so cumbersome as to interfere with the game.

A good many people think that the world over there is a living, but Queen Liliuokalani, who is now in Washington, is more modest; she only has

Paine's Celery Compound

CURES RHEUMATISM

The Only Medicine that Prevents a Return of the Terrible Disease.

Rheumatism, which does its terrible work in the muscles, joints and tissues, is caused by uric acid which gathers in the blood. To get rid of the poisonous uric acid which produces the irritations, pains, swellings, inflammations and swellings peculiar to rheumatism, Paine's Celery Compound should be used without delay. No other medicine gives such prompt, cheering and happy results. It is the only medicine that prevents a return of the dreaded disease. Paine's Celery Compound braces the nerves, the blood is quickly cleared of all irritating poisons, tissue and muscle are built up, and the digestive organs perfectly toned. Do not treat with indifference the slightest rheumatic symptoms; the early use of Paine's Celery Compound will save you weeks and months of suffering. Mr. S. D. Conway, St. Louis, Mo., was permanently cured by Paine's Celery Compound after repeated failures with other medicines and physicians. He says: "I am sixty-four years of age, and have lived in St. Louis twenty-seven years and all this time, with the exception of three years, I have served in the United States Army. I contracted rheumatism and was laid up for some time. I was treated by all the best doctors, but it did not improve. I then tried Paine's Celery Compound, which made a permanent cure in my case. I have recommended it to many, and they have used it with the same result."

STATISTICIAN'S REPORT.

He will show that Indiana Courts Cost One Million a Year.

The State courts cost Indiana about \$1,000,000 a year, the annual report of the State Statistician will show. This is about 40 cents per capita. Much of the expense, however, is borne by litigants. For grand and petit juries in all the counties except Fulton, Franklin, Lawrence and Morgan, which have not reported, the cost was \$250,000. Changes of venue cost \$22,000. Miscellaneous expenses, with Clinton county out, was \$260,000. There were 25,000 civil cases and 10,000 criminal. The salaries of all the Circuit and Superior Judges are paid out of the State Treasury. The judge of the Marion Criminal Court is paid by Marion county. The Statistician will show that of 25 convicts in the State prison, 531 are white Americans and 163 American-born negroes; 4 Irish, 27 Germans, 7 English-born, 4 French and 3 Scotch, 1 Belgian, 1 Russian, 1 Welshman and 1 Pole. Of 99 inmates of the Indiana Reformatory at Jeffersonville, 68 are white Americans, 191 American negroes, 10 Germans, 8 Frenchmen, 3 Canadians, 8 English-born, 1 Pole, 1 Swiss, 1 Belgian and 2 Irish. In the State prison are 44 members of a Protestant church and 140 Catholics in the Indiana Reformatory 242 were Protestants and 82 Catholics.

KILLED BY BIG FOUR TRAIN.

Joseph M. Personette Walked in Front of a Passenger Engine.

Another grade-crossing accident cost a human life, last yesterday afternoon. Joseph M. Personette, a carpenter fifty years old, living with his wife at 1525 Prospect street, was run down by Big Four passenger train, No. 19, at the State-street crossing. He was hurled about fifty feet and instantly killed. His skull was fractured and his arms and legs were broken. Personette was walking north in State street, and approached the track just as an incoming passenger train, running at high speed, came toward the crossing. There was a switch engine on a side-track nearby, and this obstructed Personette's view of the main track. He evidently did not see the train, for he stepped from behind the switch engine directly on the track. Dr. Moschelle, of the City Dispensary, took the body to the morgue, and after identification it was turned over to the undertaker Blanchard. The train was in the charge of J. H. Henry, engineer, and John Conolly, conductor.

English's—"Ben-Hur."

The play made from Gen. Lew Wallace's famous book, "Ben-Hur: A Tale of the Christ," which has won high praise and commendation wherever it has appeared, was presented for the first time in Indianapolis last night at English's before an audience that filled the theater in every part. It was an appreciation of the audience's interest in the city, but of the State, but it was not a demonstrative one; there was little applause, practically no laughter, no expressions of delight, and this not because the play did not fulfill every expectation, but simply because the ordinary methods of expressing appreciation in a play-house seemed out of place. To every man in the audience, no matter what his condition, physical or mental, the drama had its appeal. It appealed to the deepest emotions, to the human heart, to the feeling that is not dependent on reason for its being; and it brought back with frightful and awesome directness the simple lessons and divine truth that every man born in a Christian land learned at his mother's knee.

The book, from which the play was taken, does this, of course, but the play goes farther than the book (and in this it differs materially from so many dramatizations of books) in that it presents to the eye and ear those things which are not through the eye and ear can best appeal to the soul of man. Even to the theologians and to those whose lives are given to the study of the Scriptures it must at all times seem difficult—so different are the eyes in the twentieth century from those who have gone before—to conjure up an image of what life meant in that land of the Jews, which we call the Holy Land, at the period at which Jesus Christ was born and lived. And yet, here, to-day, in the twentieth century, some good folk are condemned as of the devil, we are privileged to see reproduced the customs and manners of His time; to hear Him spoken of; His purposes wondered at and to feel His presence near.

There are those who see nothing good in the American stage or in the works of American dramatists; if the American stage had done absolutely nothing worthy in its long career but this, had its fame rest solely on this production, it would be justified. Its existence, for in this, at least, it has shown that the stage may be given over to uses wholly worthy; highly commendable; and which can not fail to exert the greatest possible blessing upon mankind. It is a drama of the home with immense force and dignity; the eternal truth and verity of the birth into the world of Jesus, the Saviour of mankind.

This that effect is gained through the simple story of a well-born Jew, persecuted by the Romans, is seeking his revenge, who, through melodramatic tricks is saved from the galleys to rise Monte Cristo-like from the sea, is all the more wonderful, for it is the fable that holds the attention of the people, that brings the audience down to the common level so that all are interested, until, at the last, man's love and man's revenge, man's love—all are submerged in the coming of the Messiah.

And there is this one other thought that intrudes itself, not as again referring to the days of the coming of the theatrical syndicate into the life of the American drama it has been often urged that the Jews, who, it is well known, control the affairs of the trust, do nothing to dignify their race, and that the spectacle of "Ben-Hur" answers this and other objections, and it must be more than a coincidence, more than the mere commercial spirit—though this has been well paid, too—that makes Jewry the play of "Ben-Hur" emphasizes what the book indeed mentions, but does not altogether emphasize, the fact—the scriptural narrative, of course, emphasizes it—that the dominant factor in the crucifixion of Jesus Christ was the disappointment of the Jews that the king they had so long expected, and whom their prophets had foretold, had no intention of coming to take possession of the throne, but to die for the redemption of the world.

The play of "Ben-Hur" emphasizes what the book indeed mentions, but does not altogether emphasize, the fact—the scriptural narrative, of course, emphasizes it—that the dominant factor in the crucifixion of Jesus Christ was the disappointment of the Jews that the king they had so long expected, and whom their prophets had foretold, had no intention of coming to take possession of the throne, but to die for the redemption of the world.

In the play, also, is preached once again with directness and appeal the virtue of belief. It is the cry of Ben-Hur always that those who believed in Him were saved. He has seen, of those who believed, the lame made to walk, the blind to see, the sick made well, the dead raised from the tomb. And so it is with the mother of Hur and with Tirzah, his sister; believing that He can heal them with a word, they go calmly to meet Him, secure as to the result, and when the glory of God shines on them, they behold their faith hath made them whole.

It is hard to conceive how such things as this can be put upon the stage; the same stage which is too often defiled by the glorification of the scarlet woman, the same stage which presents, and yet the fact is there; here is the play—not so much a play as a sermon—and it appeals to the better side of all who witness it, so that at its conclusion an audience names out with grave face and reverent demeanor—as if passing from a church.

The play was made from the novel of General Wallace, by William Young, and the dramatist deserves great credit for his work. The drama, as well as any dramatization of a work created to be read, can tell the same story as was meant to be conveyed by the novelist, but it does more. It appeals by the speaker's voice to the auditor; it appeals through adequate and correct scenery to the eye and it adds thereto the personality and individuality of players who feel their parts and who, by art and great skill, help the audience to realize them.

The purpose of the drama and the dramatist being, wholly good, there can be no offense in pointing out that the play begins most adroitly—adroitly, yet reverently. There are a few bars of music—several, in fact, to the auditor; it appeals through adequate and correct scenery to the eye and it adds thereto the personality and individuality of players who feel their parts and who, by art and great skill, help the audience to realize them.

beginning of the play, His birth; the ending of the play, his death; and the performance before the last miracle He was to perform before His appointed end. The story lies in that, not in the fabled tale in these qualities being put on the stage. Here the auditor is transported to the very atmosphere of those times so far away, which marked the beginning of the era in which we live; the era which has lived down the mythologies of the past, which has seen many religions die and fade away, and which has given this gray old earth its most perfect civilization. In this play, at least, the stage returns once more to its first function—that of a teacher to the multitude, and the production of "Ben-Hur" marks an epoch not only on the American stage, but on the stage of the world.

The Grand—Vaudeville.
The Grand this week presents ideal vaudeville. There is a refreshing diversity in all of the acts that makes it an actual pleasure to sit through the show and then leave the theater with the feeling that you "got your money's worth." It is a good, lively, worth-while entertainment.

The bill introduces Mary Dupont and company first. The act brings out a clever little sketch entitled "Priscilla," written by Edmund Dwyer Gray. Dupont, in the role of Priscilla, a country maiden, uses a wig effectively in transforming herself from a country maiden to a dashing burlesque. Of course, the wig is under a spell and produces the change in Priscilla.

Charles Leonard Fletcher, assisted by Reata Whiffle, do Mr. Fletcher's sketch, "At the Stage Door." Fletcher's impersonations of notables were cleverly done. His curtain speech of Richard Mansfield was well drawn and the audience took it heartily. Miss Whiffle's violin, waltzes, Falke and Semon, musical comedians, are very clever. Then comes the great Fulgura in his mystifying, quick changes and impersonations. Fulgura is this week's headliner and makes a pace sufficiently fast to place him there. He made hits with his impersonations of Lee, Grant and Lincoln and after the surrender of Appomattox. His race course act was clever, too. The Pony ballet, eight winsome English misses, make up the next turn and their repulsive novelty made their act pleasurable. Stuart Barn's is a good musicalist and singer. He says things worth listening to and his songs are just out of the factory. He has much personal magnetism and is a favorite in this city.

Joe and Wally Rosino, in an acrobatic act, close the bill. It is an old act with them, but it is just as good as ever. They do their work on a billiard table in the center of which is a rebounder. The bicycle pictures are new.

The Park—Lost in the Desert.

Although "Lost in the Desert" is filled to the brim with red tragedy, the melodrama heavy approval. The play is crowded with incidents of the intensely exciting kind. Chief among the features is a wild ride across the wild Sahara, when the hero, mounted on a feet Arab horse and accompanied by an Arab friend, escapes across the desert. The horses seem to tingle with the excitement of the occasion, and they make a hard run in full view of the audience, by means of a treadmill contrivance. The play opens with another incident just as dramatic—the burning of a ship, set on fire by the villain, and the vessel burns from bow to stern, its realism being emphasized by volumes of smoke which rolled over the audience. A number of specialties occur during the play, chief among them being acrobatics and contortion turns by a troupe of eleven Arabs. The play closes its engagement to-morrow night.

The Empire—Burlesque.
There are few commendable features in the performance given by the Bowery burlesque show, which opened a week's engagement at the Empire Theater yesterday afternoon. In it there is much of a suggestive nature to taint the whole performance, and the guilty ones seem to have charge of the show. The performance is divided into six short acts in which the chorus mixes with the specialty numbers, but none of them is deserving of special mention, except the presentation of a face that might well be the counterpart of that on the face of a clean-souled man who had known His presence. So, too, in this act, Mr. Farman's acting of Ben-Hur's awakening to the realization of what the coming of the Messiah meant was capital. Asked if he would enter Jerusalem it was with infinite pathos and sweetness of voice that Ben-Hur replied: "He will enter it, but not in state. Here is no King. On the throne of Solomon he will never sit," until at the last as he thought of the legends he had gathered with which to help the King of the Jews suppress the Roman power he cried: "And so fadeeth our dream of an earthly kingdom." And yet it was not so much the words that were admirable as it was the face and gesture, the expression of the man; these were convincing; these were the results of feeling as well as of art.

The part of Messala, the haughty, proud Roman, arrogant and strong, was well taken by the actor, but, unfortunately, somewhat in physique, made up for it in voice. The Simonides of Dodson Mitchell was a difficult part to maintain, but it was worthily done. The minor male characters of Arris, Balthasar, Iderhim and Mithras were adequately portrayed by C. M. Welch, C. J. Wilson, Henry Weaver, Jr., and William Kelly, respectively.

Of the feminine characters the Esther of Ellen Mortimer was very sweet and innocent and markedly well played; Mabel Mortimer did well. Tiraz, the Egyptian, and indeed reminded one of Cleopatra as Messala said; Mabel Bert as the mother of Hur was clever in her scenes, and Amrah, the faithful nurse, was well played by Helen Prindle as Tirzah had little to do, but did not fall in any degree, and made a good impression.

The special music arranged for the production by Edgar Stillman Kelley is very beautiful and quite in harmony with the extreme beauty of the story. It is reverent in tone, and in harmony and in entire accord with the nature of the different scenes.

The choruses and groupings are most skillfully arranged; the dances, the whole, and Joseph Brooks, under whose direction the little children being a pleasing feature.

Throughout the performance last night there were one or two blemishes here and there, due partly to the smallness of the stage and partly to the fact that it was the first night on a new stage, and that the working crew was unfamiliar with the multitudinous details, but these are scarcely worth mentioning; they detract little of nothing from the value of the whole, and the production, under whose direction the play was put on, deserves its meed of praise.

Looking back on the performance, one thinks of it as really a wonderful thing; literally a thing to wonder at—that such a story should be put on the stage and lose nothing of its sublimity, its reverence, its glory. Nay, that it should rather gain in these qualities being put on the stage. Here the auditor is transported to the very atmosphere of those times so far away, which marked the beginning of the era in which we live; the era which has lived down the mythologies of the past, which has seen many religions die and fade away, and which has given this gray old earth its most perfect civilization. The Christmas Scribner's
will appear this year in a cover of exquisite beauty, designed by F. V. Du Mond, printed in nine colors and gold. It will be rich in the kind of thing that has made the Christmas Scribner's in past years notable. The present number will contain:

ILLUSTRATED STORIES

ARTHUR COSSLETT SMITH'S NEW STORY.

"The Desert." Readers will remember the charming story, "The Turquoise Cup," by Mr. Smith, which was a prominent feature of last year's Christmas number, and was illustrated by Maxfield Parrish. The present story is also illustrated by Mr. Parrish, one of his pictures forming the frontispiece of the number.

RICHARD HARDING DAVIS'S "The Gentle Art of Bull-Fighting"

Fully illustrated from photographs taken by Mr. Davis and others, and redrawn by C. M. Relyea.

"PIPPO," BY GUY WETMORE CARRYL

is a very original story of a little Italian boy and his exploits in the Blue Grotto of Capri, admirably illustrated by a dozen beautiful drawings by the Italian artist, E. Tito.

F. HOPKINSON SMITH'S STORY

"Compartment No. 4," is a humorous tale of travel experience in Germany. It is fully illustrated by W. L. Jacobs.

THE BISHOP'S SILENCE

is a story by Mrs. Mary R. S. Andrews, well known to readers of Scribner's as the author of "Vive l'Empereur" and other stories in the Magazine. It is illustrated with drawings by Miss Florence Wyman.

OCTAVE THANET'S STORY

"The Right of the Strongest," tells of a woman who makes an advanced experiment in social equality and of its results. Illustrated by W. L. Jacobs.

"THE CUSTOM OF THE CAPTAIN"

In addition to these illustrated contributions there are some letters of R. D. Blackmore, author of "Lorna Doone"; "The Alliance of Laughter," a story by E. F. Benson, author of "Dodo," and poems by Robert Louis Stevenson and Joseph Russell Taylor.

FEATURES IN COLORS

In addition to the cover in colors there will be two special color schemes of extraordinary beauty, and a frontispiece illustration in colors by Maxfield Parrish.

"CHRISTMAS AT CAFE SPAANDER"

written and illustrated by Edward Penfield, is a delightful sketch telling of the Christmas experience of an English artist in a little Dutch town. The illustrations are notable, running through eight pages of the Magazine and reproduced in five colors.

"A MOTHER'S DAYS"

a series of eight beautiful full-page pictures by Jessie Wilcox Smith, reproduced in five colors.

FOR SALE EVERYWHERE PRICE 25 CENTS

There is one thing in particular we want to tell you about—that is our easy way of tooth-pulling.

Dark weathered oak, full finish. It has three shelves above and two closets beneath. Doors and sides furnished with small glass panes. It is trimmed with heavy hand-made brass pulls, plates and nails, and is altogether a thing of beauty—

\$80.00

Another style in black Flemish oak \$45.00. Buffets, tables and chairs to match.

Badger Furniture Co.

Blood Wine Prolongs Your Life

In Bath, Me., there is an institution for people of advanced years, where every comfort is provided, and every care taken to prolong the lives of the inmates. "Blood Wine" is used for different troubles, and statistics show that, since its introduction there about a year ago, the percentage of sickness has been greatly reduced. "Blood Wine" is, beyond doubt, a grand thing for aged people. It increases the appetite, tones up the nerves, nourishes the weakened tissues, and brings back to a remarkable degree the strength and vitality of youth. Mrs. M. C. Weston, whose motherly face we give above, is an inmate of the Home and has been so pleased with "Blood Wine" that she recently wrote these few short lines, which, however, convey a truth that couldn't be made stronger in a whole page:

"I have taken six bottles of 'Blood Wine' and know that it is excellent for aged people. I was greatly benefited and am now feeling better than I have for years."

One bottle of "Blood Wine," costing fifty cents, will quickly convince any one that Mrs. Weston has not overestimated its worth one mite. It is a wonderful strength producer for elderly people.

For Sale by Henry J. Huder.

Heavy

Dull Feeling After Dinner.

Tortures of Death From Headache.

Dr. Miles' Anti-Pain Pills Relieve and Cure.

"Nearly every day I suffered from severe attacks of headache. They usually began with a heavy, dull feeling soon after dinner. During these spells my head felt as though there was a tight bandage around it, my temples throbbing, I became sick at my stomach, and suffered almost the tortures of death. For two years past I have been taking Dr. Miles' Anti-Pain Pills, and have found sure and immediate relief always. By taking one in time the headache is prevented every time." —Mrs. M. E. Noble, Gardfield, Wash.

"Dr. Miles' Anti-Pain Pills are all right. I can recommend them very highly to anyone who needs a remedy for headache, neuralgia, or pain of any kind. My health is not very good, and I am subject to frequent attacks of severe headache, but since I began taking Dr. Miles' Anti-Pain Pills I do not suffer from them as I used to. They never fail to give relief in a few minutes, and if taken promptly upon the approach of a headache will prevent an attack from coming on." —Mrs. Wm. Peck, Gloucester, N. Y.

PURDUE CANNON ROARED FOR GOVERNOR DURBIN

NOISY DEMONSTRATION BY THE STUDENTS.

OFFICIAL INSPECTION TRIP

The Governor Made a Speech and Made a Tour of the Buildings—Ceremonies on the Campus.

(Special to The Indianapolis News.)

LAFAYETTE, Ind., November 25.—Purdue University paid its respects to Governor Durbin and his party this morning by holding the largest demonstration in the history of the university. Every student in the university took part in it.

On its arrival the party was greeted by the roar of artillery, the Governor's salute being fired. This served as a signal for the students to leave their work and assemble on the campus. Beneath the campus flagstaff a stand had been erected and on this were the guests, who, besides the Governor and the legislative committee, included State Auditor Hart and State Treasurer Levy. The cadet corps and the infantry formed in line and behind these marched the juniors and seniors and the whole column, including 1,400 students, marched across the campus, passing in line before the visitors. The militia then formed with Captain Reeves and staff in front, while the other students marched to the south.

President Stone introduced the Governor, who was cheered as he began to speak. He began by referring to his visit here last year and complimented the students on their new chapel, which is under construction. He said: "The world does not need men. What it needs is force. And if you young men go about the world with the force and energy that will be shown here (referring to the football game between Purdue and Notre Dame), you can not lose." The Governor was then shown through the college buildings, including the laboratory equipment, power plant and students at work at their various desks. At noon the Governor said good-by to President Stone, and the legislative committee and returned to the city, where he took a train for Indianapolis.

CONKEY CO. INDICTED.

Grand Jury Takes Action on Importation of Peace Officers.

(Special to The Indianapolis News.)

HAMMOND, Ind., November 25.—The Lake county grand jury has returned an indictment against the W. B. Conkey company, charging that peace officers have been imported to Indiana by the concern. The action is the outgrowth of difficulties the Conkey company has had with organized labor. The union men claim the indictment throws the burden of the fight on the company.

The indictment is based on a shooting near Conkey's plant, last Tuesday, when Arthur Rusch, a striker, was shot by a detective, who had been employed to protect non-union men.

Health Officer is Busy.

Vigo County Man Contending with Smallpox and Typhoid Fever.

(Special to The Indianapolis News.)

TERRE HAUTE, Ind., November 25.—County health officer Van Cleave is a busy man, responding to alarms of smallpox in several parts of the county. He has closed a school northwest of the city, where a child had been for several days with her face, badly broken out with smallpox.

An epidemic of typhoid fever at the mining town of Elmhurst resulted in closing all the wells in the town after the water had been analyzed by the State Board of Health. There is smallpox at the mining town of Pontiac.

NO DANGER OF LYNCHING.

Matthews Alexander Goes to Terre Haute in Two Weeks.

(Special to The Indianapolis News.)

TERRE HAUTE, November 25.—When the case of the State against Matthews Alexander, charged with the murder of Thomas Burke, was called in the Circuit Court, Deputy Sheriff Cooper informed Judge Piety that Sheriff Faust, who has been ill with pneumonia, would not be able to go to Indianapolis and bring the negro back for two weeks. The judge said he would wait for a conference with the sheriff. Little is heard now of danger of lynching Alexander should he be brought to Terre Haute.

STREET RAILWAY SUE

For the Collision with Charles Fearnought's Carriage.

Charles Fearnought, secretary and treasurer of the Western Furniture Company, has filed suit against the Indianapolis Street Railway Company for \$25,000 for injuries sustained in an accident April 13. Fearnought was riding with his family in a surrey, at Maryland and Illinois streets, the rear trucks of a street car going south in Illinois street went east in Maryland street and struck Fearnought's surrey. His skull was fractured, two ribs were broken and his back was injured.

SLOT MACHINES DISAPPEAR.

City Council at Crawfordville Issued Orders to Police.

(Special to The Indianapolis News.)

CRAWFORDVILLE, Ind., November 25.—The police have cleaned up the town of slot machines, although they did not succeed in getting possession of all the contrivances. The City Council held a special session and instructed the police to suppress the evil, and the police swooped down on places where the machines had been in operation. But the owners had word of the Council's action, and nearly all the machines had disappeared when the police arrived. The police say that the harvest days of slot machines are over in Crawfordville.

Will Stop Gambling at Greenfield.

(Special to The Indianapolis News.)

GREENFIELD, Ind., November 25.—Mayor Carr has directed the police to stop the operation of all slot machines, dice and other gambling devices, which have run free and easy here for years. The mayor has stopped the sale of liquor on Sunday.

JOY AMONG TIN WORKERS.

Gas City Men Hold Demonstration Over Prospect of Work.

(Special to The Indianapolis News.)

GAS CITY, Ind., November 25.—There was a demonstration here last night over the opening of the American tinplate mills, which have been closed for four months. The plant will reopen to-morrow. Men gathered about the plant late in the afternoon, where there were numerous speeches and music.

A parade was formed, the men marching around the big building singing "Hard Times Come Again No More." A fire and drum were pressed into service, and the jollification continued after dark. The hot department will be the first to open, and in ten days the entire plant will be running, when 500 men will be employed.

SHUT OUT OF BEDFORD.

City Council Puts Up the Bars Against Mitchell Smallpox.

(Special to The Indianapolis News.)

MITCHELL, Ind., November 25.—The spirit of jealousy that has prevailed between Mitchell and Bedford has been intensified by the Bedford City Council enforcing a quarantine against Mitchell on account of smallpox.

Farmers living between the two points claim that Bedford was prompted in the action that they might be forced to trade at that point. Many of the farmers had been coming to Mitchell, as the Clerks' Union at Bedford had the stores close at 6 p. m.

There are twenty cases of smallpox at Mitchell, the cases being mild in form and all closely guarded.

Newspaper Man in Poor Health.

(Special to The Indianapolis News.)

MARION, Ind., November 25.—Elbert Eward, manager of the News-Tribune, has resigned and early in December will go South for the winter for the benefit of his health. He will retain his stock in the newspaper. For many years Mr. Eward has been an earnest newspaper worker, and under his direction the News-Tribune has had material growth. Mr. Eward came to Marion about five years ago, beginning as a reporter on the Chronicle.

News from Every Part of Indiana

RUSHVILLE—James McCoy, age about one-half past night.

MUNCIE—The Muncie police will give their fourth annual ball Wednesday, and a large attendance is expected.

PENDLETON—The dedication of the United Brethren church here, announced for December 7, has been postponed.

MARION—Burglars entered the jewelry store of L. L. Blair last night and took several dozen gold rings and watches.

CHARLESTON—The school board of Sellersburg has ordered the schools closed on account of smallpox in that place.

RUSHVILLE—Mrs. Jane Kinney, eighty-five, is dead at the home of her son, ex-Congressman James W. Brown.

ELKHART—W. F. May has sold his interest in the Jones-Turner Glass Company and will operate a factory in Chicago.

LAFAYETTE—John A. Reller and Miss Ella Korschell, who eloped, have been arrested in Buffalo, N. Y., and will be brought back to this city.

PERU—Mina Rietler, age thirteen, has mysteriously disappeared from her home in Peru, Ind., and has not been heard of since.

PORTLAND—While taking down the press in the Commercial Revue office, a bundle of papers fell on the head of Elmer Spades and he was killed.

WABASH—Robert Kimple, receiver for the Citizens' Bank of Converse, which failed ten years ago, has completed the settlement of the bank and every depositor was paid in full.

TERRE HAUTE—Dr. J. L. Weinstein, president of the City Council, says if the Legislature will pass a law for voting machines, the Council will cheerfully appropriate the money.

TERRE HAUTE—A Vandallia train on the Peoria division ran into a car of Illinois Central yesterday at Decatur, Ill., last night, and a man named Redmon had his back sprained by jumping.

TERRE HAUTE—The employees of the Latta Creek coal mine at Javonville, sixteen miles from here, have gone on strike. They are demanding a raise in wages and a shorter day.

WABASH—George Hart, an old man, was injured by an interurban car this morning and was probably fatally hurt. He was in a wagon and drove on the tracks. The wagon was wrecked.

VERMILION—Judge New, of the Ripley Circuit Court, sustained a motion to quash the indictment against Auditor Robert White for presenting a false claim to the county treasury two years ago.

HARTFORD CITY—This city is in darkness as the result of the electric lighting plant being closed. The company operating the plant intended using natural gas for fuel but sufficient gas can not be had.

WABASH—William Ebbsinghouse, a teacher in District 10, Pleasant township, has been dismissed by the township trustee for alleged misconduct toward older pupils. The teacher denies the charge.

MACAC—Saloon men and all other merchants handling tobacco have signed an agreement not to sell cigarettes or cigars to minors. The agreement was brought about by the efforts of the church people.

MAAMONT—Levi D. Ratliff has brought suit against Benjamin F. Moore, superintendent of schools, and John H. Ryan and Nettie Shivers, on the advice of the school No. 10, because his son has been excluded from school. The boys' parents refuse to have him vaccinated.

WABASH—Judge Shively has decided in favor of the defendants in the case of the Wabash and Lafayette Logansport Traction Company against the Wabash Logansport company. The court held that the Logansport company did not show its case was not a paper scheme. An appeal will be taken.

PORTLAND—The Rev. H. B. Bosworth has resigned editorial charge of the Eastern Indiana Christian on the advice of his physicians, and the publication will be discontinued. An effort will be made to turn a company to make the Christian a State paper and the office will probably be changed to Muncie.

ELKHART—The Aurora Council has granted a franchise to Swarthout & McMillen for an electric line in the streets. The Indiana Southern Railway will be incorporated to build a line from Rising Sun to Aurora and from Versailles to Elkhart, and will connect with the Indianapolis, Shelbyville & Southern either at Greensburg or Batesville.

NEW ALBANY SCHOOLS NEED MORE MONEY

TAXATION ONE-THIRD OF THE AVERAGE INDIANA RATE.

MORE SUPERVISION DESIRED

The High School Has Overflowed Into a Stable—Some Rooms Contain Seventy Pupils.

(From a Staff Correspondent.)

NEW ALBANY, Ind., November 25.—The public schools of this city are conducted under peculiar difficulties. The rate of taxation for school purposes is exceptionally low and it has been impossible for the city to keep pace with other cities of its size. When New Albany subsidized the Air-Line years ago, it assumed a burden that has hampered it ever since. The average rate of taxation for schools throughout the State is, according to actual statistics, just three times what it is here.

Many towns of 2,000 population have a higher rate than this town of 3,000. In the last ten years, however, it has been doubled. In 1883 it was but 13 cents. This year Superintendent Prosser has succeeded in bringing it up to 37 cents.

Under such financial depression, it is surely creditable that \$45,000 has been saved for a new high school building. The high school situation here had long been depressing. The building was small and old, and there was no money with which to build a new one. For the present, the high school is held in the old gubernatorial mansion, with an overflow into the stable, cleaned and painted and made habitable.

New Albany needs not only a new high school, but new ward schools and more of them. Only two of its fourteen buildings have modern heat and ventilation. The Shelby-street building is the best and is a very fair example of what a school-house should be.

The Superintendent's Burden.

Mr. Prosser, with three men's work to do, does it zealously and intelligently. He has more than seventy teachers under his supervision, beyond that, as ordered by his two special teachers, one in music and the other in calisthenics and writing. There is a distance of five miles between some of the schoolhouses, so that one to be consumed in getting from one to the other. The building principals do not supervise at all, as their entire time is occupied in the instruction of the seventh and eighth grades. Consequently the teaching here is uneven, some of it being superior and some poor.

Another obstacle here to the best teaching is the crowded condition of most of the rooms. There is but one building in the city which has not more pupils than it can comfortably care for. Fifty children to a room is the rule, which means, unless the teacher be of more than average strength, keeping school rather than teaching it. Some rooms have registered as many as sixty and seventy pupils.

Professional Training.

The average in professional training among the teachers here is not so high as it should be. No new teacher is hired who is not a high school graduate, and who has not at least one year of special training. But there are many exemption license teachers among the corps. Recently, however, the requirement has been made of these teachers that they shall pass a special examination in the subjects of pedagogy or psychology, selected by the school board and the superintendent.

Another means of bringing up the average of instruction consists in the encouragement of requests for leave of absence. Any teacher who takes such a leave for the purpose of studying in one of the universities has the promise of re-election for a term of years on his return.

Mr. Prosser's personal desire to improve the teachers is shown in the special five weeks' training school, which he conducts each summer. Three of his principals assist him, and an earnest, practical study is made of psychology and the art of teaching.

The system of salaries here is based on the high of the grade taught. Over this fact it is difficult to keep good teachers in the lower grades. The average principal's salary is \$100, which seems out of proportion to the \$55 maximum of the grade teachers. Some years ago when Green Smith was Attorney-General of the State, New Albany accumulated an excess of tuition money, which by law was turned to the State, to avoid a repetition of this loss, certain salaries were raised with the resulting discrepancy mentioned.

The music work here, under the supervision of J. H. Alexander, is superior.

HEALTH AND MONEY GONE.

Former Wayne County Man Wants Shelter at County Infirmary.

(Special to The Indianapolis News.)

HAGERSTOWN, Ind., November 25.—An effort to have Edward Baldrige brought from the infirmary at St. Louis to the infirmary of Wayne county. Years ago he was one of the well-known young men of this community, and his father was a wealthy citizen here.

Young Baldrige, now 35, who is ill with health and misfortune overtook him. His property is now gone, and he is totally blind and helpless. Friends will undertake to aid him gain admission to the Wayne county institution.

They propose to bring him here and keep him long enough to establish his residence in the county, when application will be made for his admission to the infirmary, where Baldrige wants to make his home.

Father Ducey's cook says of Presto

We made cakes with Presto and were delighted with it. They were delicious, much quicker, very nice indeed, delicious.

12 E. 9th St., New York City, Oct. 5, 1902. (Signed) Miss E. Lyons, in employ of Father Thomas J. Ducey.

"Some more H-O to-day."—Oliver Twist.

Buy the first package of H-O because we tell you to. You'll buy the second because you like it!

All the oatmeal left over from breakfast can be used for other dishes. Put it in moulds and set it in the refrigerator over night. The next morning serve with fruit, or cream and sugar, or both. There, now, did you ever taste anything better?

The Century Butter Cracker

The best Cracker in the world for soup. Ask your grocer for it and insist on having it.

FROZEN DESSERTS FOR MRS. HILLER'S CLASS

IT TOOK A VERY SHORT TIME FOR HER TO MAKE THEM.

A THANKSGIVING RECIPE

Two Wine Sauces, One Made with Sauterne, and Another with Claret—A Frozen Pudding.

Mrs. Hiller made frozen desserts yesterday. She stirred together sugar and water, with a mixture of juices of pineapple, lemon and orange for flavor, put them in her freezer, and with a few turns that took about a minute and a half brought forth a sherbet ready for the table.

Mrs. Hiller described the difference between frozen dishes, saying the sherbet is made with eggs or gelatine; frappe is a kind of mush; punch is water with spirits in it; sorbet is a frozen punch; Philadelphia ice cream is simply frozen cream; New York cream is a frozen custard; mousses is a heavy cream, beaten stiff.

Things necessary for the making of ice cream include a heavy sallet bag, a mallet for crushing the ice, rock salt, a dishpan for mixing the salt and the ice, and a measuring cup. Mrs. Hiller also gave the proportions of ice and salt to be used for the different freezings, an important part of the process.

To prevent fruit from freezing in ice cream, it should be soaked in brandy.

Many members of the class will try some of Mrs. Hiller's recipes for their Thanksgiving dinners. One that will appear on several tables is called baked Alaska. It is a sponge cake, with a thick layer of brick ice cream on top and a meringue over the cream. This is set in a hot oven until the meringue is delicately browned. The egg top and the cake foundation prevent the ice cream melting, and when it is served it is cut in slices with a layer of cake, cream and meringue for each plate. It forms a delicious dessert.

Two Wine Sauces.

Mrs. Hiller prepared two wine sauces, one with sauterne and another with claret. One of her ways of serving ice cream is to take vanilla ice cream, scoop it in cone shapes with a large spoon, roll each cone in coconut and set it on the plate with the point up. Around this pour a sauterne sauce, colored green with a bit of fruit coloring. To serve a wine sauce on canned fruit, peaches or pears, the fruit and sauce should both be chilled.

Mrs. Hiller made a frozen pudding, and put in candied cherries, pineapples, pears and apricots. Another recipe was Creole ice cream with maple sirup and chopped almonds to make it good. Another was One way that Mrs. Hiller likes to eat fresh strawberries is to have large fruit with the stems left on placed on a plate surrounding a small glass of claret wine sauce, and to take the berry by the stem and dip it into the sauce. She advised the class to try it in strawberry time.

One of the desserts described was a pistachio cream with Sultana raisins, with a hollow space in the center filled with sweetened whipped cream and garnished with candied fruit. Another was O-be-joyful salad made of fruits and nuts, dressed with wine sauce.

The lesson today on fancy dishes closed the series.

CHURCH'S CELEBRATION.

The Closing Service of Twenty-Fifth Anniversary Observance.

The closing service of the twenty-fifth anniversary celebration of the Central-avenue M. E. church was held last night. It was called a fraternal meeting, as pastors of several Methodist churches took part. The Rev. E. B. Rowe, presiding elder, congratulated the church on the great work that it had accomplished.

INSIDE CITY LIMITS.

Board of Works will Ask Council's Indulgence on Smallpox Site.

The Board of Works will send to the City Council for consideration at its next meeting a communication asking the Council's consent to the location of the pesthouse inside the city, but saying that the board knows of four sites outside the city that it can have if the Council refuses to consent.

A THANKSGIVING THOUGHT

No home table so humble that it should not groan like a palace table with the good things of this life. Among the blessings of the age for which we give thanks, are the ways of lightening the labors of modern housewives. It is no longer to be said that woman's work is never done.

Take NONE SUCH MINCE MEAT for example—it's the kitchen thankoffering to the progress of Time. It makes plum pudding—a thing indispensable to holiday-making at home—possible at low cost and without trouble.

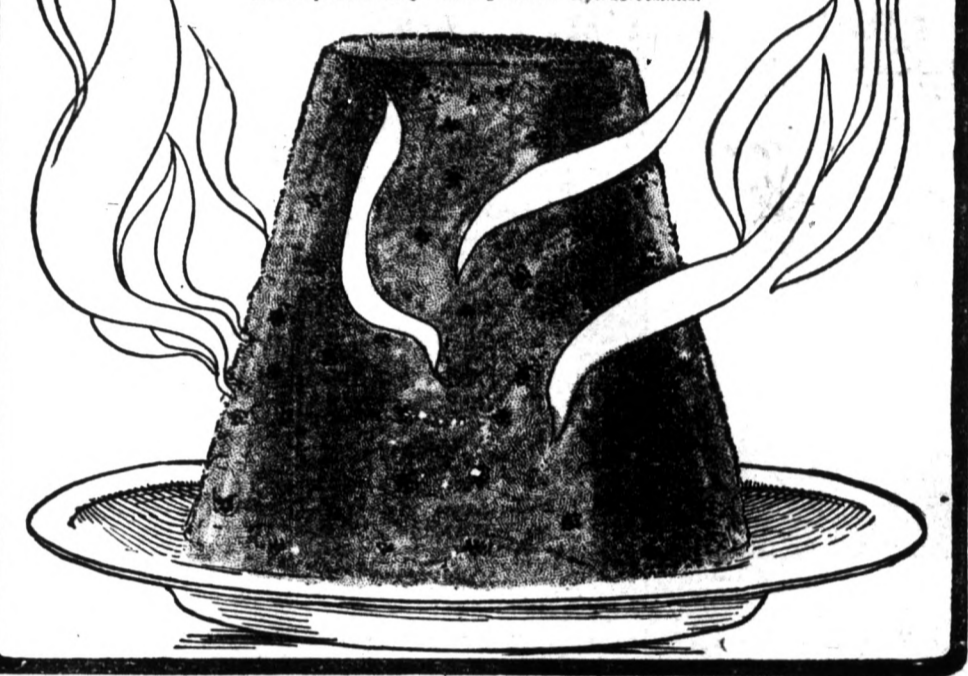

NONE SUCH MINCE MEAT

This crown of every feast comes ready-made to the cook's hand—moistened, formed and steamed—it's a child's task to prepare it.

Mince pie goes with Thanksgiving, too—the custom is as old as the hills, and NONE SUCH makes mince pie "like mother used to make." So the people say who last year bought 12,000,000 packages of it. (Ten cents a package;) sweet, juicy, fruity and wholesome—above all clean—made to "keep" winter and summer. A larder without NONE SUCH is an empty place.

All grocers sell it. Merrell-Soule Co., Syracuse, N. Y., make it.

Valuable premium list of "1892 Rogers Bros." silverware enclosed.

Packages only—at all Grocers. Cereta Spoon Coupon in the package.

What would you give for a Good Appetite?

Not a false appetite, such as is aroused by powerful and deadly drugs like strychnia, quinine and nuxvomica, but a healthy appetite for good food? As our old doctor used to say, "If you can't eat, you can't work," and we might add, "or play either."

We are very sure that Vinol will find your lost appetite. It will arouse the vital organs to call for wholesome food and help them to absorb it.

Vinol is a non-secret union of the valuable principles of organic iron, cod liver oil and a good table wine.

It is pleasant to take, and both nourishes and creates an appetite for nourishment.

Thousands of bottles have been sold on the guarantee of "money back," if not satisfied, and a dissatisfied customer is very rare.

ASTHMA.

Medical authorities throughout the country, including names like those of Dr. C. F. Boardman, Framingham, Mass.; Dr. L. D. Knott, Lebanon, Ky.; Dr. M. C. Coffey, St. Louis, Mo.; Dr. F. E. Brown, Sanborn, Iowa; and Dr. J. C. Currier, St. Paul, Minn., all agree that the Whetzel system of asthma treatment affords an actual and absolute cure for the disease. The efforts of physicians everywhere have been to ease the breathing and keep the distressing symptoms under control, leaving the disease itself alive, but latent and asleep in the system. Under the Whetzel treatment the germ of the malady is eradicated and the patient made exempt from further attacks.

FREE TRIAL FOR ALL APPLICANTS.

Dr. Whetzel will for a time send a test course of treatment free to all applicants who will give a short description of their case and send in two personal letters from friends.

Ask for booklet of particulars in writing for free trial treatment. Address

DR. FRANK WHETZEL,
Dept. R, American Express Building, Chicago.

Mrs. Charlotte Cooperall, a trained nurse, of 40 North Fifth St., Hudson, N.Y., says: "I had indigestion and other stomach trouble."

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

cured me after other remedies failed. I recommend them to all my patients and friends for all disorders due to poor blood or weak nerves. For book of other cures, address,

Dr. Williams Medical Company, Schenectady, N.Y.

A Strong Statement

Rev. Theo. Hunter, pastor of the Presbyterian Church, Greenburg, Ky., says: "I have received great benefit from the use of Dr. David Kennedy's Favorite Remedy. I had a severe attack of kidney trouble, but Favorite Remedy entirely relieved the malady."

In David Kennedy's Favorite Remedy is the most cure for all diseases of the Kidneys, Rheumatism, Liver and Blood, Rheumatism and Phlegm.

All druggists sell it in the NEW 50 CENT BOTTLE and the regular \$1.00 to bottles.

Sample bottle—free for trial, free by mail. Dr. David Kennedy Corporation, Roseton, N.Y.

LABOR MAY TAKE PART IN THE TOBACCO FIGHT

RETAIL DEALERS WILL TRY TO INTEREST THE UNION.

DANGER TO CIGAR MAKERS

How the Trust Might be Dealt a Hard Blow Through the Plug Tobacco Trade.

A secret meeting of Indianapolis retail tobacco dealers has been called for tomorrow night at the Commercial Club rooms. The present threatening attitude of the trust and plans to meet a possible union of the Indianapolis plug by the United States Cigar Company will be discussed. It is expected that the meeting will result in an organization by the Indianapolis retailers and some of the jobbers. S. D. Pierson called the meeting on behalf of the other dealers.

The preliminary organization in Indianapolis may be effected by less than twenty dealers, but they will fully inform the other dealers of the urgent necessity of organization.

Labor may become interested in the fight. The meeting to-morrow night will select one or more of the Indianapolis dealers to confer with leading representatives of the Cigar Makers' Union. It is said that the union has even more at stake than the cigar dealers.

Would Destroy the Union.

It is said that as soon as the trust should centralize the trade, the trust would be in a position to destroy the Cigar Makers' Union. It is also pointed out that the trust does not control more than 23 per cent. of the cigar production of the country, and is, therefore, not as great an employer of labor as the independent, to whom the cigar makers not only have to look for employment, but for the maintenance of wages.

The cigar makers will probably be asked to interest all unitists in the fight by taking it before the Central Labor Union.

Two points will be made. The first is that the tobacco trust controls over 80 per cent. of the chewing tobacco production of the country, and is making great profits in that department.

The second point is that the trust controls but 30 to 35 per cent. of the cigar production of the country, and is losing millions in that department. The earnings on plug tobacco more than make up the losses in the cigar trade. It is said that if the labor union men of this and other cities could be brought to demand anti-trust chewing tobacco, even if they were not so careful about putting trust-made cigars under the ban, the trust would soon be crippled or destroyed.

UNION LABOR AND SALOONS.

Central Labor Union was Asked to Oppose Temperance Movement.

The Central Labor Union last night refused to endorse the fight now being made by the liquor element against the "blatant remonstrance." No exceptions were taken to the chair ruling the matter out of order. A committee composed of James Moriarty, Philip Zapf and John Barnard, representing the Knights of Piety, asked that the laboring people of Indianapolis use their influence against the "blatant remonstrance."

A delegate from the Typographical Union pointed to the fact that there was a wide difference in consideration shown the union people by the temperance and liberal elements.

As a means of self-interest he thought organized labor would receive more material benefit from working with the liberal element than with those who were opposed to them.

Business Agent John Koch, of the Brewery Workers' Union, thought there were some saloons that should be remonstrated against. David McClure, of Carpenters' Union, 28, said that the delegates to the Central Labor Union represented the better element among the working classes, and that they would not be true to their constituents if they did not do all they could to retard the growth of the liquor element. President Feilman declared that the Central Labor Union was not a political party.

The legislative committee reported that, according to the decision of several attorneys, there was no statute that would prohibit the shipping of laborers from one State to another under contract, and that any law seeking to curtail this would be unconstitutional. It was, however, reported that the State Federation of Labor would ask the Legislature to pass a law governing the employment agencies.

On demand of the hoisting engineers, the West Washington street bridge contractors, Fife & Son, were put on the unfair list.

The special committee which had charge of the difference between the Tile Workers' Union and the Encaustic tile-workers' society, that after it had been agreed by the firm to accept a settlement, it had been repudiated by the firm. The union asked that the firm be placed on the unfair list, and an active fight be made against it. This was adopted.

Resolutions of respect to the memory of Robert E. Groff were adopted. President Feilman was appointed organizer to fill out the unexpired term of John Blue, who has left the city, and John White, who was appointed state organizer, to fill out the unexpired term of Robert E. Groff.

Prohibition Alliance Meeting.

The Central Prohibition Alliance last night re-elected Edward W. Clark, president; T. N. Bunnell, vice-president; Miss Belle Keaton, secretary; Walter Olson, treasurer; and Harry L. Robbins, marshal. After the business meeting papers on "Health and Whisky," which from Dr. H. J. Hall, of Franklin, and "The Philosophy of Prohibition," from V. E. Cushman, of Banker, Me., were read. Committees were appointed to arrange details for the Prohibition rally, December 10.

THE INDIANAPOLIS SMOKE NUISANCE—NO. 2.

THE HOT ICE AND COLD STORAGE COMPANY.

THE NEWS' THANKSGIVING.

Annual Dinner to Carriers and Newsboys and a Public Entertainment.

The annual dinner given each Thanksgiving day by The News to its paper sellers and carriers will take place at noon Thursday in the grand ballroom, which occupies the second floor of the mechanical building in Court street in the rear of The News counting-room. Plates will be laid for between eight hundred and nine hundred sellers and carriers, who will be the guests of the paper they serve so well.

There will be no music, no speeches, for the entire occasion will be devoted to the turkey and the eatables that are properly associated with the Thanksgiving bird. The skilful line will be found among sandwiches, pickles and other provokes to a feast. As these move forward the turkey will appear and the battle of the knife and fork will be on. Following this will come the light artillery, which will move to the front, and there will be a rapid fire of pumpkin and mince pies, apples, bananas, cakes and ice cream.

Performance at Tomlinson Hall.

On Friday evening at 8 o'clock The News will give an entertainment to its 1,100 carriers and newsboys, their parents and friends. This will be held at Tomlinson Hall, which is the largest place to be found in the city until the coliseum is built. Tickets for all the seats have already been given out and The News is compelled to put up the card, "Standing Room Only." The lower floor has been reserved for the newsboys. A few tickets for standing room may be had by early call at The News subscription department, in the rear of the counting-room.

The performance at Tomlinson Hall will include brilliant local talent, several skit artists and specialty performers from the theaters and The News' Newsboys Band.

TRUANT OFFICER WILL ACT.

Children Must Not Remain Out of School to Take Part in Ben-Hur.

Truant Officer Hizer has given notice that proceedings will be instituted against parents whose children are allowed to remain out of school to become "super-numeraries" in "Ben-Hur."

Miss Hamilton, principal of Benjamin Harrison school, complained that three boys remained out of school yesterday to attend rehearsals.

The principals of Washington school and of No. 4 made similar complaints. Miss Hamilton said one pupil was out to-day, and that all three were expected to remain away to-morrow to take part in the matinee.

Mr. Hizer has "taken the matter up" with the authorities of the "Ben-Hur" production, and has received a promise that the school children that form a part of the "populace" will not be kept out of school, if it is possible to avoid it; but he is preparing to take action if necessary.

Miss Hamilton says the bad effect of allowing children to take part in the performance does not stop with their remaining out of school; their mind is so absorbed with the stage that they can not pay proper attention to their studies.

One parent to whom she pointed out these objections said the school authorities should feel proud that the children were capable of taking the parts.

On Friday evening at 8 o'clock The News will give an entertainment to its 1,100 carriers and newsboys, their parents and friends. This will be held at Tomlinson Hall, which is the largest place to be found in the city until the coliseum is built. Tickets for all the seats have already been given out and The News is compelled to put up the card, "Standing Room Only." The lower floor has been reserved for the newsboys. A few tickets for standing room may be had by early call at The News subscription department, in the rear of the counting-room.

The performance at Tomlinson Hall will include brilliant local talent, several skit artists and specialty performers from the theaters and The News' Newsboys Band.

Chelars Thanksgiving Bulletin

Ladies of the Flower Mission wish it announced that they will have 1,200 or more loaves of the best bread Indianapolis housewives know how to bake and that the same will be for sale at the conclusion of the contest Wednesday. This bread will cost you 5c and 10c a loaf, the proceeds to go to the charity fund of the society. Get your Thanksgiving supply by attending. Bread on sale at and after noon. Take either elevator to the 11th floor of L. S. AYRES & CO.

YOU'VE just one day to "spruce up" for Thanksgiving functions and festivities. As usual The Ayres Store will be closed on this National holiday—business ends Wednesday until the following Friday. If your needs are not pressing there's another reason for your presence here, to-morrow, in the numerous and varied opportunities to buy good goods at less than the usual prices. Especial attention is called to the sale of Lelia Gloves at a dollar, and the black silk Dress Skirts at \$12.75. These are bargains certainly unusual.

Oriental Rugs

Regular prices ranged from \$3 to \$5, and from \$4 to \$7; now divided into two lots at \$1.50 and \$2.50 each.

CONVICTS' FOOD NOT SUFFICIENTLY VARIED

CONDITION SHOWN BY PRISON PHYSICIAN'S REPORT.

MORE MONEY IS NEEDED

Dr. Sharp Believes Physical Condition of Prisoners at Jeffersonville Reformatory Might be Better.

The food at the Jeffersonville Reformatory for a part of the two fiscal years that ended October 31 was not of sufficient variety nor quality to keep the inmates in good physical condition, Charles E. Shively, president of the board of managers, says the report of the Reformatory physician, soon to be filed with the Governor, will show. Mr. Shively says this was because prices were high and because the board desired to live within the appropriation.

Acting on Dr. Sharp's advice, the board of managers, Mr. Shively says, recommended in their report, filed with the Governor, an increase of \$10,000 in the appropriation for maintenance.

"What is meant by the request for an increase in the appropriation for food?" was asked of Mr. Shively.

"I called at the Governor's office to-day to explain to him that the report of the Reformatory physician was not quite ready to be filed with the board's report," he replied, "and that it will be filed in a few days. It will explain the increase asked for."

"What does the physician think about the food that has been used?"

"Well, he thinks there should be more variety, more change. The food has been plentiful enough, but it has been too coarse—not enough vegetables and stuff like that. The board cut off pork. We had a good contract on beef, getting it for 5 cents a pound. Dr. Sharp advised us to put pork back on the list and we did it."

"Why was pork cut off and why did the board modify the bill of fare?"

"We desired to live within the appropriation. There was an increase in price of foods not anticipated when the Legislature made the appropriation for maintenance."

"How come the board to get a contract for beef at 5 cents a pound?"

"The beef is furnished by a man who has a contract to furnish nothing but the finest steaks to a fine restaurant in Louisville. He sets a high price for those steaks and all the rest of the beef to dispose of. That is the reason for the low price."

"Did the inmates have enough food?"

"Oh, yes; the amount was all right, but it was too coarse. Dr. Sharp thinks there should be greater variety."

The Legislature of 1901 appropriated for maintenance \$100,000, and \$70 a year for each person present over a daily average number of 300 inmates each month.

A special from Jeffersonville to The News last week said the \$10,000 extra asked for maintenance:

How Money will be Used.

"Of the extra sum, \$5,000 will be for provisions, and \$5,000 for clothing and woollens. When the board of managers met recently and took up the question of an appropriation for maintenance, Dr. Harry C. Sharp, physician at the institution, was called in and asked for any suggestions he might desire to make regarding a change in the sustenance department that would better the physical condition of the inmates."

"Dr. Sharp said he thought the general health of the inmates would be better if they were not given a diet composed so largely of glucose. In the place of sirup four times a week he recommended that it be used only on two evenings. In its place for the main meal he suggested bologna sausage or some other variety of cured meats. For the other evening he recommended some brown food, head cheese, or the like. Other similar suggestions were made, and on account of the high prices now prevailing on all kinds of provisions it was found the appropriation would have to be increased and it was decided to ask for \$5,000 in this department."

"For clothing and woollens it was found the institution had been barely able to live within the appropriation for the past year. When the appropriation was asked two years ago the tailor shop was well supplied with goods and there was a sufficient quantity of blankets on hand to run for some time, but in this department the stock became low on account of the increased prices and it was only by the most rigid economy that the appropriation was sufficient to furnish what was needed."
